Two of six steel mail and express cars of the Chicago & NorthWestern's fast mail train, No. 5, west bound, which were derailed when the train struck a split rail in the Nachusa yards last night. Two mail clerks, working in these cars, received injuries which necessitated hospitalization here. Details in adjoining column. Other pictures on page 5.

White Citizens of Manila Mistreated MacArthur Reports

All Forced to Remain Indoors on Penalty of Being Shot

Washington, Jan. 5—(AP)—Japanese invaders of the Philippines accorded "especially harsh" treatment to American civilians in Manila and discriminated "against all white residents," the war department reported today.

Immediately speculation arose whether the state department would seek through Swiss diplomatic channels to better the conditions of United States citizens in the islands. Switzerland is looking after United States interests in Japan by agreement with the state department.

(A Domei news agency broadcast from Tokyo, heard in London, quoted a high source in the imperial high command as denying reports of "alleged discriminatory treatment" of the white population in Manila.)

General Douglas MacArthur, in a radio message from his headquarters somewhere north of Manila, advised the war department he had received reports from the Philippine capital "indicating discrimination against Americans by the Japanese forces, in marked contrast to the treatment previously accorded Japanese civilians by American troops."

Had Protected Japs
More than a week ago General MacArthur had reported in detail that Japanese civilians under American control were well-treated, that about 3,000 were being protected from possible mob violence, and their property was being protected. He said steps to protect the Japanese civilians were taken at the urgent request of the Japanese Consul General in Manila.

The report MacArthur made yesterday said:

"While the treatment of American civilians is especially harsh, the Japanese are discriminating against all white residents of Manila. The occupying troops have issued instructions that all white civilians in Manila, irrespective of nationality, must remain indoors, under penalty of being shot if they appear on the streets. These instructions imply contemplated internment of the white population of the city, without record to citizenship. Apparently subjects of Germany and Italy, allies of Japan, as well as citizens of neutral countries, such as Spaniards of whom there are many in Manila, are included in the general discrimination against whites."

Propaganda leaflets being distributed by Japanese airplanes also contain "abusive attacks on the white race," the general said.

Two Forreston Men Near Death Today

(Telegraph Special Service)

Forreston, Jan. 5—Alfred Rosenbaum and Donald Fager, state highway department maintenance workers of Forreston, narrowly escaped being victims of monoxide gas fumes today, while preparing state-owned trucks to work on the highways in this vicinity. The two men were found lying on the floor of the garage at 9 o'clock this morning by other workmen who were in another part of the building at the time. They received medical attention and were removed to their homes where they were reported to be recovering from the effects of the gas.

The War Today!

By DEWITT MACKENZIE
Wide World War Analyst
(Telegraph Special Service)

The battle of the Pacific, with its first mad swirl dying down, has now taken sufficiently definite steps so that we can name its nature, and we know that the allied task is to hold the Japanese in check while creating the strength necessary for assumption of the initiative, or as Far Eastern Generalissimo Wavell puts it: "We must hold on with what we have until we can collect our forces for the return blow."

Specifically, the allies must prevent the Nipponese from seizing the Dutch East Indies with their vast store of essential supplies, pending the marshaling of Anglo-American power in the Orient. That means a successful defense of the strategic base of Singapore and of Australia.

This is so because, as this column has previously pointed out, the war with Japan, like the European conflict, is one of resources.

Now while Nipon is set to wage war for a considerable period—maybe a year or so—on resources already piled up for the emergency, the island empire is dependent on imports from allied nations and must succumb ultimately unless new fields can be opened up and held. The Japs are good at spinning barrels on their feet, but they can't, for instance, make petroleum. The Dutch East Indies are the Aladdin's Lamp which Tokyo seeks.

Thus the length and trend of the war depends on whether we can hold the Japanese off for a time. The gallant stand being made by our forces in the Philippines represents a phase of this strategy of holding. The chances of our hanging on to the islands are small, but every day that

Makes Own News

Hollywood, Jan. 5—(AP)—Jack Craven, 28, police reporter for a Los Angeles newspaper, created his own news today.

He appeared at the Hollywood police station with a 22-year-old youth who, he said, held him up with a gun and took his wallet. When the gunman started to remove Craven's wrist watch, the reporter struck his assailant with a right to the jaw, then disarmed him. The young man was booked on suspicion of robbery.

Registration of Men Between 20 and 44 Years Is Set for February 16th

Washington, Jan. 5—(AP)—President Roosevelt today set February 16 for registration of all male citizens of the nation between the ages of 20 and 44 who have not registered previously.

Men in this age group will be subject to military service. The date was fixed in a proclamation. It made no mention of registration of men from 45 through 64, who are to be registered later on but who will be exempt from service with the armed forces under present legislation.

In his proclamation, the chief executive noted that this and other registrations under the selective service act "will be required to insure victory, final and complete, over the enemies of the United States."

The registration will apply to all male citizens and some non-citizens born on or after February 17, 1897, and on or before De-

Chinese Veterans Believed En Route to Help Singapore

Some Sharp Offensive by Wavell's Troops Is Thought Probable

(By The Associated Press)
A Chinese expeditionary force, drawn from a reservoir of manpower that has been fighting a give and take war with the Japanese for four and one half years, may be on its way today to the British Malayan front to help save Singapore.

British sources in London expressed belief veterans of Generalissimo Chiang Kai-Shek's army were being transferred to bolster the Malayan line until Britain and the United States could put reinforcements there.

It was noteworthy that the British censorship at Rangoon and London yesterday passed a dispatch saying that the gathering of allied forces in Burma suggested that the united nations' command was mounting an offensive there.

The Japanese could be struck as easily overland from Burma at their flank and rear, as they could be by reinforcement of the front against them on the Malayan peninsula.

Unspecified numbers of Chinese troops are known to have massed in Burma. Their primary function, however, then appeared to be guarding the Burma road, Generalissimo Chiang's lifeline.

Now some sharp offensive action by the new supreme com-

Tenth Victim of Auto Crash Dies

Highland, Ill., Jan. 5—(AP)—The death of Mrs. Pauline Paddock, 25, Alton, Ill., at St. Joseph's hospital here yesterday raised to 10 the toll of southern Illinois' worst automobile collision.

Mrs. Paddock's husband, daughter and aunt and brother were among the nine victims who were killed outright or died soon after two automobiles carrying 11 people collided last Friday night at a state highway intersection near Alhambra.

The only survivor, Harold Woolsey, 28, of Alton, who suffered internal injuries, was reported improving at the hospital here.

Inquest arrangements have been held up pending his recovery.

Mail Clerks Hurt in Derailement of Train at Nachusa

Split Rail Wrecks Fast Train in Sub-Zero Weather Sunday

Six of eight steel mail and express cars of the west bound NorthWestern mail train, No. 5, were wrecked at Nachusa last night about 11:15 o'clock, when they struck a split rail just east of the tower in the east yards, two of the derailed cars tearing up the west bound main line tracks, and completely wrecking a signal tower before they rolled over on their sides on the south side of the right of way, while four other cars were dragged about a half mile before the speeding train came to a stop.

Two mail clerks, W. H. Meissner of Clinton, Iowa, and Carl Bernhard of Cedar Rapids, were rendered unconscious and were rushed to the Dixon public hospital in an ambulance. Meissner, who was buried under mail bags, suffered several body bruises while Bernhard suffered head and chest injuries and sustained cuts about the head and arms. Both clerks were treated at the hospital and were released and proceeded to their homes this morning.

T. K. Nice, of Chicago, formerly of Sterling, and R. J. McGrady of Geneva, formerly of Prophetstown were the other two mail clerks on duty in the two cars which were overturned. Both suffered minor injuries but remained on duty with the cars at Nachusa today. The valuable mail on the six wrecked cars was hauled to the Dixon post-office early this morning but the other contents were being guarded by the mail clerks until the wrecked cars were removed or the contents transferred.

Train Running Late
The train, which was late in leaving Chicago, was travelling at a high rate of speed when it entered the Nachusa yards. The split rail was a short distance east of the tower and the speeding locomotive and first two cars passed over it safely. The following cars left the track and the trucks were torn from under the sixth car, which was dragged along the right of way until the train was stopped. The last two cars rolled over on the right of way about a block east of the depot.

Both main line tracks were blocked for more than an hour until crews reached the scene and opened the east bound main line. The signal tower wreckage was strewn across both tracks. The west bound main line was still closed this morning while crews worked in below-zero temperature replacing the tornup tracks. Several officials of the NorthWestern were at the scene of the wreck today and the Clinton wrecking crew arrived about 8:30 to start clearing up the wreckage. The mail train locomotive and two cars remaining on the tracks, proceeded west some time after the accident. The conductor and brakeman of the train both suffered severe bruises when they were thrown as the cars left the rails, but continued on to Clinton.

Railroad men stated that only a miracle prevented the loss of the life of members of the crews which manned the train, none of whom was thought to have been seriously injured.

Other Traffic Delays

At 1:30 Sunday morning a NorthWestern west bound freight train halted traffic on the main line track on the bridge spanning the Mississippi river at Clinton until 4 a. m. In starting the train, a

Wife-Chainer Begins Term at Vandalia Farm

Vandalia, Ill., Jan. 5—(AP)—Neal Cahoon, 62-year-old Fayette county farmer, today had begun serving a year sentence at the state penal farm on a charge of falsely imprisoning his young wife, Rosie, although his conviction has been appealed to the Appellate court at Mt. Vernon.

When sentenced Nov. 14 by County Judge Charles R. Myers after being convicted on a charge of chaining his life in their one-room cabin near this city, Cahoon was granted 50 days to file the appeal and to file appeal bond of \$1500.

The 50-day period ended without his furnishing bail and Cahoon was taken to the state penal farm Saturday.

The appeal, filed by Defense Counsel W. P. Welker, charges among other things that the evidence in the trial did not support the verdict of conviction and that the punishment was excessive.

President to Give Message in Person Tuesday Morning

Washington, Jan. 5—(AP)—President Roosevelt will deliver to congress in person tomorrow (at 11:30 a. m. CST) his annual message on the state of the union.

He will address the senate and house, assembled in joint session in the house chamber, on the basis of plans worked out today with congressional leaders. They conferred with the chief executive shortly before the 77th congress began its second session amid reports that Roosevelt probably would request between \$15,000,000,000 and \$18,000,000,000 in special appropriations for the army and navy.

The budget message, which will disclose the accuracy of these reports and the blueprint for vast government war expenditures in the year beginning next July 1, will be submitted to the legislators on Wednesday.

Told of Program

Arrangements for the chief executive to speak in person were made at a White House conference attended by Vice President Wallace, Speaker Rayburn, House Majority Leader McCormack and Senate Majority Leader Barkley. Barkley told reporters that the president had been advised the senate would take up a price control bill on Wednesday, and that committees in both senate and house would consider promptly legislation to let the president establish daylight saving time.

The daylight savings bills now pending before committees, Barkley said, contemplate allowing Roosevelt to order clocks moved forward or backward a maximum of two hours.

If the fifteen to eighteen billions of dollars in special funds for the army and navy are requested in the budget message, they would represent a start toward the president's announced goal of stepping up war spending to a \$50,000,000,000-a-year rate by June 30, 1943.

Man and Son Injured in Palmyra Accident

Max Johns of 1502 Ninth street and his 12-year-old son Lavern, were injured in an automobile accident on the River road in Palmyra township Sunday afternoon about 3 o'clock, the latter having sustained a deep gash across his throat which missed the jugular vein by a fraction of an inch. The Johns car slid into the rear end of a milk truck belonging to Chuck Haenisch, shattering the wind shield and badly damaging the front end of the passenger car.

The driver of the truck took the injured man and his son to the police station where Officer Frank Tyne rushed them to the hospital, where their injuries were dressed, after which they were removed to their home. The badly wrecked car was hauled to a local garage.

Immigration Appeals Board Votes Against Bridges' Deportation

Washington, Jan. 5—(AP)—The Board of Immigration Appeals recommended today cancellation of deportation proceedings against Harry Bridges, west coast labor leader.

The decision was reached unanimously by the four board members who heard the case.

It reversed the recommendation of Judge Charles B. Sears, who heard testimony for three months at San Francisco early last year. The final decision rests with Attorney General Francis Biddle.

The board found that Bridges, since coming to the United States, was not a member of nor affiliated with the Communist party.

The Maritime Union leader of the Congress of Industrial Organizations is an Australian. He first came to the United States in 1920.

Over 700 Japanese Killed in Assault Against Defenders

Four More Enemy Planes Downed by Gunmen of Manila Fortress

Washington, Jan. 5—(AP)—The war department announced today that General Douglas MacArthur's Philippine army repulsed a Japanese attack with heavy enemy losses, estimating that at least 700 of the enemy were killed.

American-Filipino losses were described in a communique as relatively small.

The war department said "this was one of the most serious reverses suffered by the Japanese invaders since the war began."

The Japanese attack took place northwest of Manila.

At the same time the garrison of Corregidor fortress shot down four more Japanese bombers in beating off the third successive air attack on the fortress.

This raised officially reported enemy plane losses over Corregidor to 15.

The communique said four additional Japanese planes were hit but their destruction was not confirmed.

Fifty-two bombers took part in the attack, which continued three hours.

Both the land battle on Luzon island and the latest air raid on Corregidor took place Sunday.

Escape Attempted

General MacArthur reported that his forces crushed the attack, presumably in Pampanga province northwest of Manila, in escaping an attempted enemy trap.

The Japanese, MacArthur said, undertook to crush the greatly outnumbered defenders between two invading forces operating as a pincers from north and south. But he added that when the trap was closed "American and Philippine troops were not in the jaws."

The communique said that Japanese strategy thus failed in this instance, necessitating the frontal attack which likewise failed.

The attack on Corregidor, like

Blackett Says Sen. Brooks Is "Wrong"

Chicago, Jan. 5—(AP)—Hill Blackett, former Republican national committeeman for Illinois, eliminated himself today as a potential candidate for United States senator this year but indicated strongly he would oppose the re-election of Senator C. Wayland Brooks.

In letters to GOP county chairman and other party leaders, Blackett said "Republicans in Illinois cannot hope for widespread support if our ticket next fall is headed by a man who has been completely wrong in the most critical situation that has faced our country in 80 years."

Saying "I shall not be a candidate for office this year," Blackett invited party leaders to give "serious thought" to primary candidates, and, without mentioning Brooks by name, criticized members of congress who took a pre-war isolationist stand.

"You can put it in your hat that the voters will support only those Republicans who, by word and action during the past months, demonstrated that they have been right about the fundamental position of the United States in world affairs," the letter continued. "And the isolationists, just as they were wrong about this war, would be wrong gain at the peace table."

Salute of Honor
Chicago, Jan. 5—(AP)—Firemen rushing to a third floor apartment to extinguish a fire received a salute of honor—21 barks—as they went past a second floor flat.

After putting out the blaze the firemen stopped to acknowledge the canine welcome. Miss Marion West said she had 20 dogs in her apartment and if the firemen heard 21 barks one of her pets must have barked twice.

Mt. Vernonite Held in Torch Death of Man Who Dated Estranged Wife

Carbondale, Ill., Jan. 5—(AP)—Seibert Gregg straton, Mt. Vernon machine shop operator, was held without bond today pending grand jury investigation of the death of Hildreth E. Kinkade, 28-year-old Mt. Vernon oil worker.

Kinkade's charred body was found New Year's night in his flaming automobile a few feet off U. S. highway 51 10 miles south of Carbondale.

A Jackson county coroner's jury, completing a three-day probe, decided yesterday that Kinkade came to his death by felonious means and recommended that Stratton should be held to the grand jury without bail.

Stratton's estranged wife, Mrs. Josephine Stratton, a Mt. Vernon waitress, testified at the inquest that she and Kinkade kept a New

Mangled Body of French Official Found on Railway

Vichy, Unoccupied France, Jan. 5—(AP)—The mangled body of Yves Perringaux, chief secretary to Interior Minister Pierre Pucheu, has been found along the railroad tracks between Paris and Troyes, in German-occupied France, it was announced today.

(The Berlin radio at first broadcast that both Perringaux and Pucheu had been found dead, presumably the victims of assassins, but later changed its story to say that only Perringaux was killed.)

It gave no explanation for withdrawing the original story although it previously had announced that an investigation into what was said then to be two deaths had been started.

(Whether Perringaux was traveling with Pucheu was not disclosed.)

Perringaux's body was said to have been found in a mangled condition near the station of Flamboin-Gouaix, about two thirds of the way between Paris and Troyes. He had taken a train in Paris last night en route to Belfort, in Alsace.

The German report may explain the outbreak of anti-nazi incidents which have brought new punishment on Paris in a 5 p. m. curfew.

(The Berlin radio said the Paris curfew was placed on cafes and other public places, because unidentified assailants had exploded a bomb in a restaurant frequented by Germans. The radio said there were no victims and only slight material damage was caused.)

(The incidents coincided with an apparent chilling of French-German relations, reported in Stockholm to be at their worse since the armistice.)

White Hall Factory Burns; Loss \$50,000

White Hall, Ill., Jan. 5—(AP)—Fire swept through the factory of the Co-Ed Frock Company here early today causing damage which company officials estimated at \$50,000.

George Bradshaw, a watchman, discovered the blaze at 3 a. m. and said it apparently was caused by overheating of a boiler flue. The fire departments of White Hall and nearby Roodhouse battled the flames for more than three hours in near-zero temperatures.

Company officials said the fire destroyed or damaged most of the dress goods stock in the 30 by 120 feet, two-story brick building, which also was heavily damaged.

Two Soldiers Killed in Train-Car Crash

St. James, Mo., Jan. 5—(AP)—Two Fort Leonard Wood soldiers were killed in an auto-train collision last night at 11:20 p. m. They were Corp. Glen Chew, 27, Ridgefarm, Ill., and Pvt. Kenneth Monahan, 20, Shady-side, Ohio.

The weekly Fort-St. Louis excursion train, bearing 1030 mates of the two victims, and a car in which the two were riding, met at a St. James crossing.

Chicago, Jan. 5—(AP)—Firemen rushing to a third floor apartment to extinguish a fire received a salute of honor—21 barks—as they went past a second floor flat.

Hint Finland May Quit Nazi Crusade Against Russians

Possibility Adds to Hitler's Troubles on Eastern Front

Adolf Hitler, still steadily losing the Russian footholds for which he paid so dearly and harassed at the rear by new stirring of the conquered peoples, was confronted today by a hint of Finnish defection.

Officially the Finns never professed partnership in the European "crusade"—Hitler's term for the war with Russia. They insisted that they were fighting only for recovery of territory vital to protection of their national life.

Now, according to the British news agency Reuters, the influential Helsinki newspaper Suomen Sosialidemokraatti says the time "seems a suitable opportunity to break off military operations."

With the Russian offensive in full swing against the entire German front, the Finns may have concluded it would be better to strike a bargain with Russia before the full force of the Russian drive hits them.

Perhaps Russia has counted on just such an overture, for, while the Finns have been under counter-attack along with other allies in the Hitlerian "crusade," there has been nothing to indicate that the offensive in their direction equals it in others.

Recalls Marshal's Statement

The Helsinki newspaper harked back to Field Marshal Mannerheim's statement at the end of November that Finland's strategic goal had almost been reached and said that several important towns had been occupied meanwhile.

"Since then our troops have not launched any offensive operations. Therefore it seems a suitable opportunity to break off operations at this point."

Thus British and United States efforts to negotiate a Finnish-Russian settlement, once rebuffed by Helsinki, may be ready to bear fruit. Finland has long been regarded as the most likely state to be cut out of the Hitler camp.

Red Drive Carries On

The Red army's power drive was reported officially today to have carried through Belev, 100 miles west of the German high water mark on the southern flank of the Moscow arc.

The Germans were said to have lost 2,300 men in dead and wounded in fighting for Belev, which is 50 miles south of Kaluga and half way to Bryansk from Tula.

The Belev drive paralleled a pincer movement farther north to which Borovsk had fallen, heightening the threat of entrapment for the Germans at Mazhaisk, west of Moscow.

Over the Egyptian-Libyan border region the RAF hammered at axis holdout forces in the area of Halfaya "Hellfire" pass. The air assault was timed with land attacks.

Having captured Bardia and rounded up 7,500 German and Italian prisoners there, "our attention has now been turned to the last remaining pocket of enemy resistance in eastern Cirenaica," said the Cairo communique.

"In the Agadabia area our mobile columns and air forces maintained their pressure on the enemy, especially against his communications to the west."

Chinese Celebrate Great Victory Over Enemy at Changsha

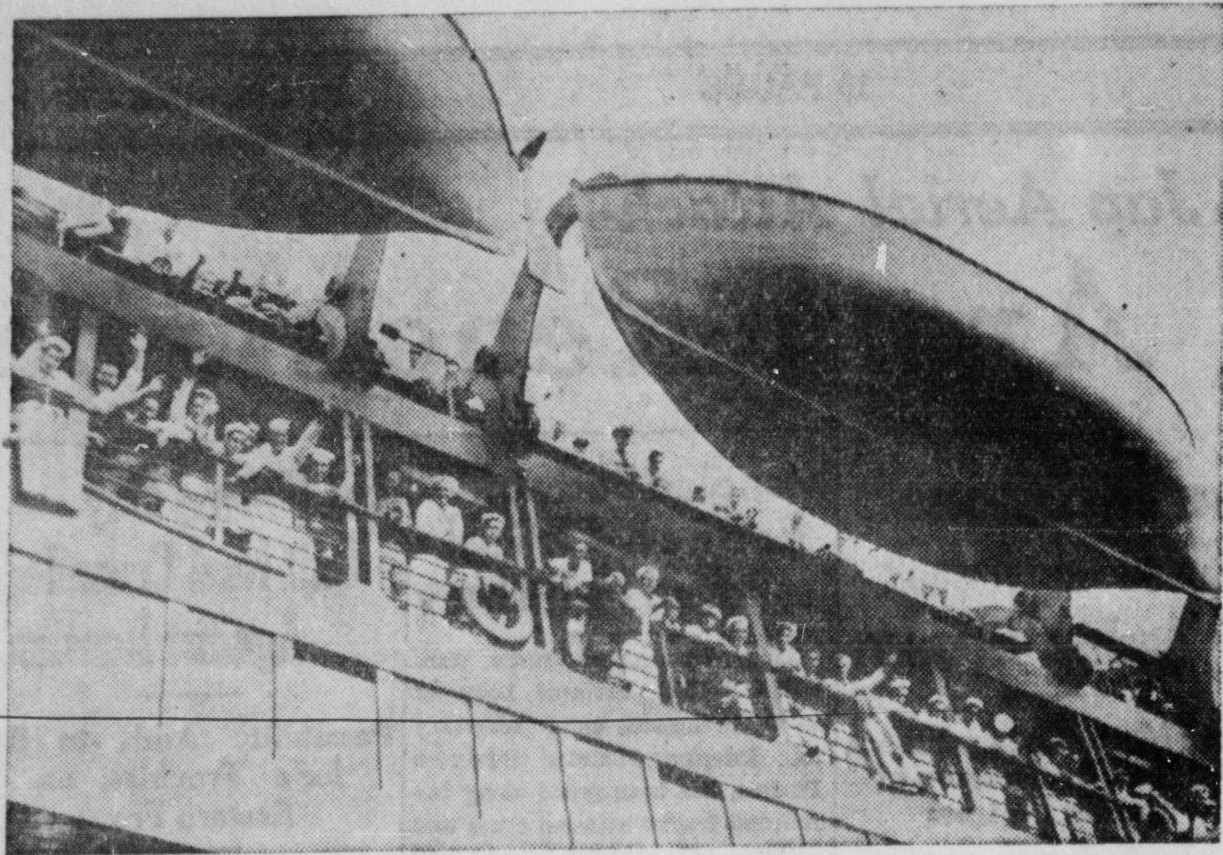

Chungking, Jan. 5—(AP)—Firecrackers were discharged and gongs sounded triumphantly in the streets of Chungking today to celebrate what the Chinese proclaimed a great victory over the Japanese at Changsha.

The Chinese declared that a junction had been effected by the Chinese Changsha garrison and the troops sent to its relief, and that a Chinese cordon had been drawn about the Japanese force which had suffered 52,000 casualties in three days in a "catastrophic debacle."

The Japanese, dependent upon air-borne supplies, are continuing attempts to break out of the trap, Chinese said.

A group of newspaper correspondents and foreign embassy attaches, including Lieut. Col. David D. Barrett, assistant U. S. military attaché, left for the Hunan front to view the scene of the Changsha battle.

with Rev. R. S. Wilson of the Bethel church bringing the message. Both the Congregational and Bethel churches will hold their regular prayer services in their own churches on Wednesday evening. On Thursday evening they will meet at the Alliance Tabernacle for a union service with Rev. Theodore DeBoer of the Congregational church bringing the message. On Friday evening the service will be held in the Bethel church on the north side and Rev. W. J. Martz of the Tabernacle will speak. Time for prayer will be given at these services. The public is invited to any of them.

This Universal Week of Prayer is conducted by the World's Evangelical Alliance, and has been followed in hundreds of communities in this country for the past score of years. The organization in this country that emphasizes this observance is the Federal Council of Churches through their department of evangelism.

A series of prayer topics has been prepared by Rev. Richard Davidson, principal of Emmanuel college, Toronto, Canada, using the theme: "The Living God". Some of the Dixon churches will follow this theme during the week, and for that reason it is indicated here in brief form:

Sunday, Jan. 4—"The Living God". Read Joshua 3:10; Isaiah 51:9-11; Rev. 19:6. Monday, Jan. 5—"The Son of the Living God", John 1:14; Hebrews 7:25; 13:8.

Pray for grace and truth through Jesus Christ.

Tuesday, Jan. 6—"The Spirit of the Living God", Matt. 3:11; John 16:13; and Romans 8:1, 2, and others. Pray for purifying and quickening of God's spirit as well as leading and uplifting of the spirit. Wednesday, Jan. 7—"The Church of the Living God", Eph. 1:22, 23; 4:1-13. Pray for the church, the body of Christ.

Thursday, Jan. 8—"The Book of the Living God", II Peter 1:21; Romans 15:4; Hebrews 4:12 and II Timothy 3:16, 17. Pray for a revival of love for the Bible and its message.

Friday, Jan. 9—"The Worship of the Living God", Revelation 5:13; I Timothy 2:1; Psalm 84:2. Pray that people may worship in spirit and in truth.

Saturday, Jan. 10—"A Day with the Living God", Psalm 118:8; Psalm 139:5; I Peter 5:7. Pray for daily needs.

Sunday, Jan. 11—"God of the Beginning and God of the End", Isaiah 10:5-7; Daniel 4:17; Revelation 19:6. Pray for faith that is eternal, which will commit the final outcome of life's struggle into the hands of a conquering God.

Persons not able to attend any of the services in the churches, or in cases where their church does not make a service available, may follow this outline in private and family devotions.—Publicity Committee, Dixon Ministerial Association.

WEEK OF PRAYER

The Brethren church will observe the universal week of prayer by having services each evening except Saturday, Monday evening at eight o'clock the Loyal Links Sunday school class which is

taught by Rev. William E. Thompson will conduct the service. Neal Bowers will be the leader of the program which will emphasize the church and the home in prayer. Miss Lucile Zimmerman will have charge of the special selections for the evening. Marian Butterbaugh will be the pianist and Jeanette Tumlin will lead the congregational singing. The following subjects will be considered: "Making the home a social center," by Orville Brindle; "What can we do for the boys in Uncle Sam's service," by Dorothy Lindstrom; "Why should we have a week of prayer services," Marian Butterbaugh; "How can we make everyone feel at home in our church," Lena Bowers. The public is invited to attend these services.

BETHEL MEN ELECT

New officers for the coming year were elected by the Men's Bible class of Bethel U. E. church recently. The election followed a turkey dinner at the church during the past week.

Joseph Jeanguenot was elected president for the coming year. Arthur Hoey was elected vice president; Orville Albright, secretary; Oscar Cramer, treasurer and Donald Culver assistant secretary and treasurer. These men will take office the first of the year and continue during 1942. (D.V.)

Rev. R. S. Wilson was reelected teacher of the class, and W. T. Grieg was reelected as assistant teacher. The class meets each Sunday morning at 9:45 a. m. in connection with the Bethel Sunday school. Monthly class meetings are held on the last Tuesday of each month.

The retiring officers who have served for the past year are: Everett Donoho, president; Frank Forman, vice president; Joseph Jeanguenot, secretary; Foster Thompson, treasurer; and Fred Hoffman, assistant secretary and treasurer. This completes the first year since the combining of the two men's classes of the church into one class.

Is your child a NOSE PICKER?

It may be more than just a nasty habit! It may be a sign of worms. Yes, ugly, crawling roundworms inside your child! Other warning signs are fidgeting, "icky" appetite, crankiness, itching in certain parts. Roundworms can cause real trouble! If you even suspect your child has them, get Jayne's Vermifuge right away! Jayne's is America's best known proprietary worm medicine. Scientifically tested and used by millions for over a century. It expels stubborn worms, yet acts very gently. If no worms are there, Jayne's acts merely as a mild laxative. Be sure you get Jayne's Vermifuge.

Illinois U. Asks to Construct Airport

Champaign, Ill., Jan. 5.—(AP)—A proposal that the University of Illinois construct its own air field at an estimated cost of at least \$100,000 will be submitted to the university trustees at a meeting in Chicago Jan. 15.

Plans for the university to build the air field were discussed at a meeting here Saturday by school officials and members of the State Aeronautical Commission.

A recommendation was made by Ben Regan, commission chairman, that the university trustees seek an appropriation of from \$60,000 to \$100,000 from the state legislature for purchase of land for the proposed field. He said federal funds were available for improving the proposed project.

Should the trustees seek the appropriation, State Senator E. R. Peters of St. Joseph, chairman of the senate aviation and military affairs committee, told the meeting he would sponsor the legislation.

Many Potential Pilots

There are only two small, private landing fields in the twin

cities of Champaign-Urbana.

Regan told the group that "no other city in the midwest has a greater pool of potential pilots that the home of the University of Illinois." He said that Governor Green as well as the aeronautics commission would do "our utmost in cooperation with federal authorities to bring about the establishment of an airport" at the university.

Dean M. L. Enger of the School of Engineering said that the university was willing to teach aviation on a large scale. Judge Sveinbjorn Johnson, university counsel, asserted that the school had been asked to give ground training to 2,500 naval air cadets.

WE-ALL

The Japanese attack on the United States instantly changed our trend of thought in this country.

Before that attack some of us thought in terms of "I", others in terms of "we". Neither of those terms expresses our feelings today.

"I" represents only one person.

"We" may mean only two or a few persons.

Our slogan now is WE-ALL, which means every loyal individual in the United States.

We are facing a long, hard job, but when the United States decides to fight for a cause, it is in terms of WE-ALL, and nothing can or will stop us.

President Roosevelt, our Commander-in-Chief, can be certain that WE-ALL are back of him, determined to protect our country, our form of government, and the freedoms which we cherish.

Marjorie Lou Blewfield Is Bride of Sergeant Rippeon

As an early winter sunset deepened into twilight on Sunday afternoon, radiance of white tapers gleamed in the stained glass windows of the First Methodist church for a 5 o'clock wedding in which a young sergeant from Camp Polk, Louisiana claimed the daughter of the church's pastor as his bride. About 200 relatives and friends, including many members of the congregation, turned out to give their best wishes to the young bridal pair, Miss Marjorie Lou Blewfield, fourth and youngest daughter of Dr. and Mrs. F. L. Blewfield, and Sgt. Arthur Harrison Rippeon, son of Mrs. B. H. Rippeon of Dixon.

The attractive light-haired bride stood before a candlelit altar to repeat the impressive vows of the Methodist wedding service, which her father has also solemnized for her three older sisters. Two of the sisters, Mrs. James R. Pollock of South Haven, Mich. and Mrs. Robert Slaughter of South Bend, Ind., became brides during their father's six-year pastorate at Benton Harbor, Mich., and the third daughter, Doris, became Mrs. Dona'd Blunt, at the Dixon church last Aug. 17. Margie was maid of honor at the Blunt-Blewfield wedding in August.

At either side of the altar were large baskets of coral gladioli and white carnations, with smaller bouquets of red roses and white carnations in the background.

Organ Prelude

While the guests assembled, Mrs. Slaughter played favorite selections of the bride and groom at the organ. Her prelude included "Intermezzo," "At Dawning," and "Calm as the Night." As the organ chimed sounded familiar tones of the "Intermezzo," the Misses Patricia Moore and Mary Jane Hardy descended the balcony stairs to light cathedral candles in seven-branched candelabras at the altar.

Preceding the ceremony, Miss Mary Louise Stevens of South Bend sang two solos, "Because" and "I Love You Truly." While the bride party was assembling before the altar, "The Bridal Chorus" from Wagner's "Lohengrin" was played. The Mendelssohn wedding march was used for the recessional.

Miss Jeanette Baccash of Benton Harbor, Mich., a girlhood friend of the bride, was Margie's maid of honor. Her gown of peach silk organza was designed on princess lines, and she carried a French colonial bouquet of blue iris, Picardy gladioli florets, and tufts of blue mallow.

Mrs. Blunt, as her sister's matron of honor, was wearing blue silk organza, with fitted bodice and full skirt. Pink flowers formed a coronet for her hair, and she carried a French colonial bouquet of pink carnations and white narcissi.

Tulle and Lace
Margie was a traditional bride in white. Tiers of filmy tulle formed her full skirt, worn over duchess satin, and extended in a rounded train. Fragile Chantilly lace formed the bodice and trimmed the long, tapering sleeves, and the sweetheart neckline was edged with fluted tulle, with a quaint peplum effect of lace. Her lace-trimmed veil fell to fingertip length from a tiara of seed pearls and her all-white shower bouquet contained white gladioli, roses, and sweet peas, tied with knotted streamers of white satin ribbon.

Ben C. Rippeon served as best man for his brother. Dr. J. L. Tavenner was head usher, and his assistants included Homer Schildberg, Donald Blunt, Ellsworth Miller, Chester Prescott, and Richard Blewfield of Rockford.

The bride's mother was attired in navy sheer over dusty rose taffeta, and Mrs. Rippeon chose aquamarine silk jersey. Pink roses formed their shoulder corsages.

Reception at Church

Following the ceremony, a reception was held in the church parlors. Mrs. Casper Blimbing and Miss Minet Wagner presided at the lace-covered refreshment table, which was beautifully appointed with an all-white tiered cake and pink tapers. Members of the Woman's society of the church were in charge of the serving, including Medames, Fred Ball, Robert Ayers, Charles Crombie, Earl Slagle, Sr., Fred Hobbs, Arthur Sheffield, H. J. Schumacher, and E. J. Brown. Miss Virginia Jane Lund presided at the guest book.

When Sergeant Rippeon and his bride left later on a southern honeymoon, the new Mrs. Rippeon was wearing a travel dress of aquamarine crepe, with black accessories.

The bride was graduated from Lincoln, Neb. high school and the Dixon Business college. She later was a student at Cornell college in Mt. Vernon, Iowa, and recently has had a secretarial position in South Bend, Ind.

The bridegroom is a graduate of Dixon high school, and before entering the United States army last June, was an electrician at the Reynolds Wire company. He is a member of the Headquarters company at Camp Polk, where he

State Regent Is Guest of D. A. R.

Members of Dixon chapter, Daughters of the American Revolution, held their first meeting of the new year Saturday afternoon at the Loveland Community House, with their state regent, Mrs. Otto H. Crist of Danville, as their guest speaker. Mrs. Willard Thompson, regent of the local chapter, introduced Mrs. Crist, whose subject was "Thrift, an Attribute of Spiritual Vision."

"We usually consider Benjamin Franklin the patron saint of thrift," Mrs. Crist stated, "and material thrift is important. But Webster says 'Thrift is the wise use of all one's resources,' and it was the spiritual resources of the founders of our nation, their honesty, integrity, industry, and love of their fellow man, that guided them in writing our Constitution and Bill of Rights."

"We are entering this new year with faith and courage," the speaker continued. "We must think of what our responsibilities are and how we can meet them. We must live normally. Our homes are still what we and our forefathers have made them—America is still America!"

Mrs. Crist also told her listeners about the blood plasma supply being sponsored by the organization. The state chapter, she said, is furnishing a \$1,000 donation for the defense project.

A Thought for Today

The fruit of the Spirit is love, joy, peace, long suffering, gentleness, goodness, faith, meekness, temperance; against such there is no law.—Galatians 5:22-23.

Now the heart is so full that a drop overflows it. We are happy now because God wills it.—Lowell.

Pearl Harbor and the Highways

The wounded from Pearl Harbor are arriving in the United States. It is a spectacle to which the rest of the world has long been inured—China knows it, and Britain, and Germany, and Italy, and Russia. We must steel ourselves to this and like things. That is what war means.

The wounded from Pearl Harbor, however, have given their lives or their bodies to a cause that is worth defending, worth suffering for. In the month in which they sustained their injuries or met death, a still greater number of people were struck down by traffic injuries which were no less terrible—and all for nothing. We are suffering nearly 4,000 traffic casualties a month, resulting in deaths as permanent, in wounds as ghastly, as those of Pearl Harbor—and for nothing.

We cannot spare any more in these days the toll of the road, the dead who produce nothing, the

wounded who suffer. The snuffed-out lives, the broken bodies, of those whom the automobile has crushed, are given for nothing at all, a mere sacrifice to our national Moloch of carelessness.

Enlist Them—Naturalize Them!

Thousands of Filipinos in the United States are unable, because of a quirk in the naturalization laws, to serve in the United States military forces. Milton Bronner, in a serviceable story, recently told how Filipinos born in the United States are citizens, but that there are some 20,000 of them who were born in the islands, now reside in the United States, but who are not under present law allowed to enter military service under the U. S. flag.

For many years there has been an increasingly close bond between Filipinos and Americans. This bond is now being cemented in blood.

When congress gets back to work it might well consider a law providing for enlistment of these eager Filipinos in the U. S. forces, with further provision for their citizenship on honorable discharge.

Hope Deferred

Hope deferred maketh the heart sick. So runs the old proverb, and if it be true, there must be a lot of people in Germany who aren't greeting the new year too cheerily.

A year ago, in a new year message, Hitler said, "Soldiers, the year 1941 will bring consummation of the greatest victory of our history."

So the year 1941 came and went, and as it closed the great German army was in disastrous withdrawal on the Russian front, while his expeditionary force in North Africa was nearing complete annihilation. Having added Japan as an ally, he has added the United States as an enemy.

Complete victory, which seemed almost within Hitler's grasp in mid-1940, and again in mid-1941, has now receded farther than ever, and dance, like an illusive will-o'-the-wisp before the tortured eyes of the German people.

Fewer accidents result when the alcohol is put in the radiator instead of the driver.

Lee County's Tire Rationing Program Inaugurated Today

Headquarters Established At Dixon City Hall; Hours Announced

Lee county tire allotment board, No. 52, began functioning today at the headquarters in the mayor's office at the city hall with O. H. Martin as county chairman, Charles E. Miller and T. J. Miller as members. They became federal officers at 9 o'clock when Mayor William V. Slothower administered the oath of authority, he having been sworn in as county director in Chicago Saturday.

With the organization of the board today the hours its members may be interviewed were also announced. The board may be interviewed during the hours from 9 to 11 o'clock in the forenoon and from 1 to 2 o'clock in the afternoon.

Lee county entered into a strict regulation of the sales of tires and tubes with the inauguration of the allotment board today, and but 28 pleasure car and 92 truck tires are allotted to the county for the month of January. The monthly ration is to be changed each month and a list of those obtaining tires and tubes is to be submitted for publication each week and a copy of the list will be posted at the allotment board's headquarters.

County Director W. V. Slothower and D. H. Spencer attended a meeting in Chicago Saturday where 31 counties of the northern section of the state were represented. The plan previously outlined, providing for regulation of the tire quota in the various townships, was scrapped and the central organization set up for Lee county. The strict regulations were explained at the Chicago meeting Saturday and Sunday afternoon at 2 o'clock, Mayor Slothower assembled the members of the allotment board and outlined their duties and delivered the first of the supplies.

Chester Barriage and Edward Anderson were appointed county inspectors by Mayor Slothower and they took over their new duties today. County Director Slothower entered into his new official duties today with the investigation of reported illegal tire sales in the county at once.

Regulations Strict

The regulations are quite strict and within a period of months, may require many changes in several branches of business. At the meeting in Chicago Saturday, Mayor Slothower asked whether a resident of Paw Paw would be expected to walk a distance of 35 miles to Dixon to make application for a new tire, which drew this reply:

"He had better stay at home because he isn't going to get a tire. You and I and everybody else in non-essential work might just as well make up our minds now to get our shoes half-soled and take up walking again."

Briefly outlining some of the regulations, members of the county tire allotment board today pointed out the following:

No orders for new tires will be issued for pleasure cars.

Physicians' cars, used for professional purpose, ambulances, police and fire trucks, visiting nurses and farm veterinarians cars are to be given preference. City owned cars used only for law enforcement and the protection of public health and safety are included in this group.

Taxi Lines Hit

Taxi lines when exhausting their present supply of tires, will not receive new tires, except where the company operates a vehicle carrying ten or more passengers.

School buses used solely for the transportation of children to and from school, may make application, provided that the bus is not used for excursion purposes.

Cars used by rural mail carriers in the delivery of mail but not for pleasure purpose will be considered in the accredited group.

Trucks and cars used for the delivery of groceries, meats, milk, laundry and similar services will not be considered. Individuals using cars in going and coming from their employment will not be considered.

The strictest regulations become effective throughout the county at once. Applicants for new tires will first file their applications with the board, which if considered, will send the applicant to one of the inspectors, who will make an inspection of the tire and tube and will certify his findings back to the board. Farmers using tractors will be required to remount the steel rims in the event that rubber tires are worn out.

SERVICE STATIONS

There are 15,738 gasoline service stations in Texas, more than in any other state. New York, second ranking state, has 100 less.

NEWS BEHIND THE NEWS

By PAUL MALLON
(Distributed by King Features Syndicate, Inc., reproduction in whole or in part strictly prohibited.)

Washington, Jan. 4.—The fuhrer has been sneaking planes into Sardinia as well as Greece in preparation for winter. The idyllic Italian isle is halfway between France and Tunisia, halfway between the segments of the French fleet at Toulon and Bizerte. There, without fuss or disclosure he has seized a Mediterranean stepping stone to Spain (Gibraltar) or Africa, and bisected the remains of the French empire.

The preparations in Greece have a single apparent purpose. Since Turkish papers leaked the news that Grecian airfields were being strengthened, Nazi infantry has been detected stealing in, although not yet in large quantities. There is only one place for these forces to go—into an attack on the Turkish Dardanelles, if necessary, or across them along the south coast of the Black Sea peacefully into the Caucasus oil fields if Turkey allows it.

These are the two main Hitler preparations for a winter campaign, so far reported here.

Note: Hitler will find plenty of trouble in Turkey if he goes in fighting. The mountains are high and frosty; the roads worse than in Russia.

The unexpected recent events on the Russian front are easily explained.

To start, Hitler was fool enough to announce he was withdrawing to a winter line, the most dangerous of all military operations. He thought he must advertise it publicly in order to keep the German people from suspecting a major retreat. Thus warned, the Reds started pinning the bases of salients he had projected, to hamper the withdrawal, and they met with encouraging success. Their hopes were raised so high Stalin called a meeting of his generals in Moscow to decide whether the forces he had been preparing for spring could be thrown in now. Their decision to gamble became obvious immediately. Certainly a substantial portion of men and material they had been preparing for use in the spring were set upon the heels of the Germans, and these exploited the initial successes (after Hitler thought heavy fighting was all over for winter).

You can tell how orderly the German retreat will continue to be, by watching the number of prisoners claimed by the Russians. To this writing, no substantial prisoner claims had been made by Moscow.

At two points, at least, the Germans did not intend to withdraw. They lost their hold on Moscow, Leningrad, communications involuntarily. The Reds skillfully drove to cut them off in the Crimea.

The Crimea has been held largely by Rumanians and Italians who have little heart for Nazi business. Only a few Nazis were left there by Hitler to keep the axis greasers in line. After the initial Red success at Kerch, Stalin did not drive for Sevastopol, as expected, but straight through to the Crimea to cut off the Rumanians and Italians from the small remaining neck through which they might escape. The operation had a good chance of becoming a tremendous success.

How you may help to win the war. Suggestion No. 8: Civilian defense was hastily formed, hence could not be restricted to the most alert heads at the top or bottom. Some workers may be overdoing their duty by claiming special knowledge of such things as when a gas raid will come, and thereby causing many citizens sleepless nights and discouraging apprehensions. No one here has any information on gas attacks or bombings.

Obey the instructions of your civilian defense officials without fail, even if you think them wrong. This is a new kind of war and you are in a civilian army. You must hear of good soldiers losing sleep over apprehensions. But excitement of civilians as of troops, causes demoralization. Be prepared for anything; fear nothing.

Now, it is equally true a number of officials suspect the country has been laying back into its old defense psychology and is not being kept sufficiently keyed up. No doubt the well-meaning defense workers think they are helping to cure this situation by spreading excitement. But excitement and demoralization are opposites. Terror and alertness do not belong together. Determination and alertness, all must contribute. Excitement and terror, all must avoid.

Senator Wallgren of Washington has a personal slogan which covers the point: "National defense is a thing of the past. National offense is what we want now."

The Army Air Corps definition of a test pilot is an airman who is able to run full standard performance tests on any airplane. To measure up the student test pilot has still additional tests to master.

So that America may meet any possible threat from any possible direction in the modern war of movement, its aircraft industry is rapidly producing fleets of parachute troop transports which are able to move large numbers of fully-equipped soldiers hundreds of miles a day.

Backbone of the Japanese long range bomber attack is believed to be the twin-motored Atsukuni 19 with a cruising range of 2500 miles and a top speed of 320 miles an hour.

Four Ensigns Write Heroic Chapter of Pearl Harbor Story

Put Out to Sea After the First Attack; Bagged Planes, Submarines

Honolulu, Jan. 5.—(AP)—A 1500-ton destroyer with four young ensigns as her officers put to sea under withering fire during the Japanese attack on Pearl Harbor Dec. 7, helped shoot down four of the invading planes and depth bombed two enemy submarines.

Details off the exploit have been released by the navy, to join the vast collection of hero-tales which has become navy tradition.

Three of the ensigns were reservists and the fourth just two years out of the Naval Academy. Names of the principals and the destroyers were not disclosed.

The story, covering 30 hours of adventure in the lives of less than 200 men, as related by the academy ensign and released by the navy censor, follows:

"We were seated in the wardroom, three reserve ensigns and myself, at practically 8 o'clock on the morning of Dec. 7. Suddenly the bridge telephone announced 'The Utah has been torpedoed by Japanese aircraft'.

"Immediately we sounded general quarters and manned our battle stations.

"As senior officer aboard (he is only 24) I gave orders to prepare to get underway at once.

Opened Fire in 5 Minutes

"Five minutes later we opened against the enemy with our machine-guns. Japanese planes were diving at our ships in the harbor. Two minutes later Ensign brought his large caliber anti-aircraft into action.

"Below decks, our Chief Machinist Mate, acting as engineering officer, lit off another boiler. Fortunately, we already had steam under one.

"Within a short time we were heading for the channel.

"As we moved downstream, we kept up a hot fire with our main battery and machine guns. Four planes engaged by our guns were seen to go down in smoke. Two planes that dived over us, trying to reach the battleship beyond, got it from our M. G.'s (machine-guns).

"Abeam Fort Weaver, I called for more knots. The chief gave them to me.

"We maintained this increased speed while leaving the harbor. Once clear, we set a straight course for our allotted patrolling area and slackened speed.

Dropped Depth Bombs

"At 9:50 a. m., our chief radio-man got a good contact on his listening apparatus. It was a sub, and let 'em have two depth charges. Then we regained contact and dropped two more.

"We observed a large oil-slick on the sea and bubbles rising to the surface over a length of 200 feet. First we thought the submarine was surfacing, so Ensign trained the battery to starboard to be ready for it.

"Then we knew it had been destroyed.

"We'd picked up one of our heavy cruisers by this time, when suddenly a third contact was reported. Apparently it was heading for the big ship. We made an emergency turn and attacked. From our racks we loosed another pair of depth charges. When we swung around again we saw another oil-slick. We figured we'd sunk our second sub."

"From then on", the 24-year-old captain concluded laconically, "we screened the cruiser upon orders from that vessel."

In his report he commended his three associates and the entire crew for their "extreme heroism, courage and fine cooperation."

The Chief Gunner's Mate, he said, cleared a jammed shell from a gun at great personal risk after sending all his men from the gun shield and handling room. The chief torpedoman, assuming equal personal hazard, prevented serious damage when a live war-head tumbled to the deck.

SERIAL STORY

TAMBAY GOLD

BY SAMUEL HOPKINS ADAMS

COPYRIGHT, 1941, NEA SERVICE, INC.

CHAPTER I

THE man at the crossroads gashery came out to the pump. "Why, it's Mom Baumer," he said. "Hiya, Mom?"

"Hiya, pal," I said. "Fill her up."

"Must be five years since I seen you," he said.

"All of that," I said. "You've got a good memory."

"Oh, nobody ever forgets you, Mom," he said.

I guess that's right, too. I'm a sort of institution on the roads. He took a gander at my trailer.

"How's the feed trade?" he asked, being polite.

While he was polishing the windshield I said, "What's this I hear about Tambay Plantation?"

"It's right," he said. "Life among the ruins. Poor relation."

"What sort?"

"Yankee. Keeps herself to herself."

"Would she take in a tourist, do you reckon?"

"Would the White House?" he said. "Tambay's still Tambay."

"Okay, pal," I said. "But that's where I bunk tonight. I've got a particular reason for wanting to sleep there tonight."

Coming into Tambay Plantation I rolled along quietly. Opposite the mansion I dropped the trailer.

Before turning in at the big entrance, I switched off my lights. What with the rain and the wind, there wasn't much danger of my being heard before I was ready. I got out of the car and hung a gadget of mine that had been a good old standby many a time when I wanted a lodging, on the gatepost.

Through the untended shrubbery between the live oaks I could make out Tambay Mansion. It was like a tired old lady, tired of everything, even of pride, but with the everlasting guts to keep her chin up against all comers, no matter how shabby and sad and poor she might be. Well, I was feeling a little like that myself, after 10 years on the road. I could use some rest.

I KNOCKED on the door; a good, hard, honest knock. The light moved and the door opened.

"Who is it?"

I was all set for a scrawny old-maid type with slit-eyes and a New England-yellow skin. This wasn't it, at all. The voice didn't have a poor relation whine, either.

"Could I get a room?" I said.

"No," she said. "You're in the wrong place."

"Tourists Accommodated," I said. "Going to make a liar out of your sign?"

She got an umbrella and we sloshed through the long grass. I switched my pocket flash onto the place where I'd done my picture-hanging.

I knocked on the door; a good, hard, honest knock. The light moved and the door opened.

Women Urged to Sign Up For Nurse's Aide Corps

100,000 Volunteers Wanted—Red Cross trains Nurse's Aides for Civilian Defense work. Shown at right, Jane Womack in new type uniform, serving as a volunteer aide in Georgetown University Hospital, Washington.

"WHAT can I do for my country?" is asked by thousands of patriotic women and girls who want to volunteer their time in the present emergency situation facing the nation.

The American Red Cross, through its many volunteer activities, provides the answer. The most urgent need, at the moment, is for qualified girls and women to enroll for training as Volunteer Nurse's Aides, according to Mrs. Dwight Davis, director of the American Red Cross Volunteer Special Services.

In collaboration with the Office of Civilian Defense, the Red Cross is enrolling and instructing 100,000 women and girls as aides to graduate nurses. They are needed to offset the acute shortage of professionally trained nurses.

Women, between the ages of 18 and 50, physically fit and able to serve several hours a week without pay, are urged to enroll through their local Red Cross chapters to take an intensive 80 hours instruction course in co-operation with local hospital and nursing organizations.

The aides help the graduate nurses in hospitals, clinics, home visiting nurse agencies, health departments, school health services and industrial hygiene clinics.

They make beds, take temperatures, give baths, attend to the patient's personal needs, serve meals, set up trays for treatment, weigh and measure children, etc., and undertake a number of vitally necessary duties that will release the graduate nurse for the more technical work for which she is so badly needed.

In Feverish Haste

As far as could be deduced from dispatches from the Far East, the Japanese were in feverish haste to complete their conquest of the Philippines in order to release large numbers of troops for major operations elsewhere. And as far as the evidence went, General MacArthur was giving the enemy no cooperation.

Reports from British Burma

explained why the Japanese high command might be thinking in terms of other theatres. Large allied forces were concentrating there and intensive allied air activity was noted, with the Japanese coming off decidedly second best, according to a Rangoon communiqué.

In allied hands, Burma represents

a major potential threat to Japan's grandiose plans for domination of the South Pacific. A smashing drive eastward would cut across the top of Thailand and French Indo China, placing the allies squarely in the rear of the Japanese forces now driving furiously southward down the narrow Malay peninsula toward Singapore. It would also put the allies in a position to neutralize the Indo-China bases which have played such an important role in Japan's South Sea successes to date.

Wavell Uncommunicative

General Sir Archibald P. Wavell, architect of Britain's first victory in Libya and the newly designated supreme commander of allied forces in the South Pacific, has given no hint that such a big flanking operation is in prospect. On the contrary, before assuming his new command he cautioned that "the situation may become worse until the time turns".

Wavell, however, has not been

a man who telegraphs his punches—legends it is that he was having a casual cocktail in Cairo when the zero hour came for the Libyan push.

The Berlin radio, quoting Tokyo

dispatches, reported that a large fleet of Japanese transports were moving southward, presumably for operations against the Bataan peninsula, the big land mass enclosing Manila Bay and the logical spot for the American-Filipino last stand. Tokyo reported intensive air bombing of troops withdrawing from the Manila area northward toward this region, which is largely jungle country.

Hammer at Fortress

The Japanese also have been pounding away from the air at the island fortress of Corregidor, which would anchor the southern flank of any determined stand on the Bataan peninsula.

Communications issued by the war

department here indicated that Japanese bombers were finding Corregidor a tough nut to crack. The anti-aircraft batteries of the fortress were credited with knocking down four enemy bombers out of a flight of 21 yesterday and damaging others in an exhibition of shooting which drove the attackers off. Only minor damage and a few casualties in the fort were reported.

Outline of Auto Rationing Plans Given Industry

Washington, Jan. 5.—(AP)—The outline of a proposed automobile rationing plan, expected to be even more drastic than the tire rationing program was unfolded today to 200 automobile manufacturers and union chiefs.

The rationing plan, expected to be made public around January 15, was presented by Price Administrator Leon Henderson, at the start of a session in which wholesale conversion of the four billion dollar automotive industry into war production will be drafted.

A list of more than \$5,000,000,000 in military orders, covering items which the industry is believed capable of turning out, was ready for presentation by OPM officials later in the meeting.

No details were made public on the automobile rationing program, but it was understood that it would follow closely the lines of the tire distribution program in which sales are permitted only for vehicles necessary to public health and safety, for necessary commercial and industrial use, and for public passenger use.

Notable Men Present

Notable figures in the automobile industry and government executives jammed the OPM board room, and a few minutes after the session started it was necessary to instruct attendants to admit no one else except Secretary of War Henry Stimson or Undersecretary Robert P. Patterson, who were late in arriving.

Besides the full membership of the Automotive Advisory Committee, there were on hand top officials of most major automobile firms. These included Edsel Ford, president of Ford Motor Company; C. E. Wilson, president of General Motors; Paul G. Hoffman, president of Studebaker; George Mason, president of Nash-Kelvinator; and B. E. Hutchinson, vice president of Chrysler Corp. Representatives of Packard and Hudson were on a late train and were not present for the opening.

coupling was pulled from a loaded freight car, which caused the delay.

About 4:30 Sunday morning, the locomotive pulling the east bound Challenger, left the rails at a switch near the scene of the first Clinton accident. The train was delayed until another locomotive was obtained and proceeded eastward with the train. The derailed locomotive was not replaced on the track until about noon, and during that period, the water supply ran low in the tender. The Clinton fire department was summoned and stretching a line of hose from a fire hydrant, worked almost two hours in temperatures 15 degrees below zero until the 20,000 gallon tank was refilled. There were no injuries in either wreck and only slight delays in traffic were experienced.

Pullman Company Asks To Boost Its Rates

Washington, Jan. 5.—(AP)—The Pullman Company asked the Interstate Commerce Commission today for authority to increase by ten per cent all sleeping and parlor car charges.

The company estimated that under higher pay rates recently established, its total annual increase in wages and pay roll taxes would be \$6,352,200, of which \$6,000,000 would go to increase wages.

The ten per cent increase in rates, the petition added, would produce an increase in gross earnings of about \$6,127,830, part of which would accrue to the railroads under existing agreements.

Petitions of the railroads for freight and passenger rate increases are being considered by the commission.

Dies With Man in "Love Toast"

Mrs. Nancy Wassman of Chicago, found dead with Clare S. McArdle of St. Louis, Mo., in private dining room of fashionable Chicago restaurant. They drank poison in champagne.

JOY THEATER BURNS

Chester, Ill., Jan. 5.—(AP)—Fire presumably caused by a furnace explosion, burned the interior of the Joy theater last night, causing damage estimated between \$30,000 and \$40,000.

Manager Eugene Light said he closed the building at 11 p. m. The fire broke out 30 minutes later. The building was erected in 1932.

Chinese Veterans

mander for the united nations in the Pacific war zone, General Sir Archibald P. Wavell, seemed to be in prospect.

May Restore Balance

Military observers said that the retreats in Malaya had been forced not by more efficient Japanese fighting but by superior numbers of the invaders. The British Imperial forces are perforce spread too thin and the front is too broad.

The balance might be restored, it was said, with Chinese infantry supported by British artillery and mechanized forces.

A Singapore dispatch said that confidence mounting in the long-range possibilities of defending Singapore, even though about 200 miles of the Malay peninsula had been yielded in a little less than a month of fighting.

But frankly Singapore's hopes pivoted largely on Wavell's reputation and the possibility of a Chinese expeditionary force was not cited.

Governor Appeals Direct to People Behalf of Bills

Surprise Radio Address Goes Over 17 Radio Stations Today
Springfield, Ill., Jan. 5.—(AP)—Governor Green made a direct appeal for public support today for his bills—tied up by a deadlock in the legislature—to appropriate approximately \$10,000,000 to expand the state police and the health department and set up an emergency contingent fund.

In an unannounced radio address over a statewide network, the governor proposed a series of amendments to be administration's legislative program which has been blocked by opposition of Democratic members of the general assembly.

Green's principal compromise proposal was that the bill to increase the state police from 350 to 1,000 men be amended to limit the increase to the duration of the war. He charged "political and factional objections" were behind opposition to the police expansion.

The governor also offered to amend the pending health department bills so that the state would not enter any local community, and set up proposed health zones, without first being requested to do so by local authorities.

Over 17 Stations

Governor Green's surprise appeal came shortly before a scheduled meeting of Republican and Democratic house leaders to discuss means of ending the legislature's three-week long stalemate. He spoke at noon from the Executive Mansion over WLS, Chicago, and 16 downstate radio stations.

Out of approximately \$16,000,000 in defense funds which the chief executive asked in the current special session, only two bills setting up \$5,000,000 for the Reserve Militia and \$750,000 for the State Defense Council have been enacted. Democrats have blocked the others on the contention they were unnecessary for defense. The assembly will reconvene tomorrow after a one-week recess.

Cites Reasons

Ever-present dangers of sabotage to public property, the prospective increase in thievery due to auto and tire rationing and a need for increased protection in rural areas were advanced by the governor as his reasons for seeking to triple the highway patrol personnel. The police bill calls for an appropriation of \$1,640,000.

The bills to expand the health department call for an outlay of \$1,700,000. The governor said he was proposing to limit the department's wartime authority "in recognition of the principle of home rule."

Urging passage also of the bill which would set up a \$3,000,000 defense contingent fund for expenditure at the discretion of the governor, Green said none of the money would go for payrolls and added:

"I pledge my word that no dollar would be spent except to meet emergencies."

Comeback Trail of Old Dobbin Tough

Kansas City, Jan. 5.—(AP)—The comeback trail looks like a long, hard pull for Old Dobbin.

Notwithstanding prohibition of sales of automobiles and tires to private users and restrictions on farm machinery, turnover of horses and mules on this major market are lower than a year ago. And right now you can pick up a good five-year-old team of horses for \$175 and a first class team of mules for \$300.

Even these prices aren't likely to start any immediate backward transition from the mechanized horse and mule ownership man.

The reasons? Farmers, handicapped by increasing labor shortages, just can't get the added man power necessary to run strings of horses and mules.

And as far as city transfer and delivery concerns, hit by the tire and truck restrictions, go, it's too expensive to support a horse, except as a last resort.

Prairie hay, for example, sells at \$13 a ton, up \$4 a ton over last January; alfalfa hay is \$21 a ton, up \$3, and oats cost 54 cents a bushel, 15 cents more than a year ago.

And finally, there aren't any wagons for the horses to pull, and they're higher.

Carthage College Dean Dies of Heart Attack

Chicago, Jan. 5.—(AP)—Dr. John O. Eviyen, 67, dean of Carthage College, Carthage, Ill., and well known lecturer and church historian, died of a heart ailment yesterday.

Funeral services will be held at Carthage Wednesday.

Dr. Eviyen was educated at Augsburg seminary and the University of Leipzig and was ordained a Lutheran minister in 1903.

Survivors include his widow, Selma, two daughters and four sons.

It is reported that more American tourists visited Canada this year than in the two preceding years.

Table Tennis Meet Opens—
The table tennis doubles tournament will open at the Elks club Tuesday evening at 7:30. Teams entering are to report promptly at 7:30 and individual players who have not been paired will report and will be assigned a partner for opening play.

Here From Camp Polk—
Pfc. Earl E. Hinrichs of Camp Polk, Louisiana, has arrived for a 12-day visit with his parents and friends. He has been promoted to the rank of private, first class, with class four rating in tank and truck driving.

Returns to Base—
Pvt. Frank A. Heckman, son of Mr. and Mrs. Albert A. Heckman, has returned to his home base, McCord Field, Tacoma, Wash., after completing a course in airplane mechanics at Chanute Field, Rantoul, and enjoying a holiday furlough at home.

Two Fire Calls Sunday—
The fire department was called to answer two alarms last evening. At 5:15, the firemen were summoned to the Forest Shaver residence, 216 Hennepin avenue, where a defective chimney caused an alarm. The damage was slight and covered by insurance. At 5:45 the department was called to the J. D. Webb home on Fourth street where an overheated stove caused a scare. The damage was very slight.

Farmers' School Opens—
The annual course in agriculture for farmers of Dixon and vicinity will open this evening at 7 o'clock at the high school. Entrance will be at the north door and Agricultural Inspector L. V. Slothower has arranged an interesting program of motion pictures. The part time agricultural school for young men between the ages of 16 and 21 years will open Thursday evening at the high school.

Under War Conditions—
Mrs. Walter Brauer and sister, Miss Josephine Fish, have returned from California, where they spent the holidays with their son and nephew, Robert Brauer, artificer of a company of the only infantry regiment at North Island, Coronado. They found the soldiers operating under war conditions, with trenches dug and blackouts starting each afternoon at 4:30 and continuing all night.

Grand Jury Is Convened—
Ray Applier, Sr., was appointed foreman of the grand jury for the January term of the Lee county Circuit court when the members reported to Judge George C. Dixon today. Two members who are out of the county were replaced by Ralph Dean of Ashton and Elliott Arnold of Viola, whose names were drawn from the supplemental grand jury list. Miss Grace Louise Crawford is clerk of the grand jury in its investigations which were expected to be completed late today.

Feed the Birds—
Bird lovers are asking their townspeople to place food outdoors for the birds which are wintering here. Ice and snow prevent the birds from finding food for themselves and face starvation unless bread crumbs and crusts, grain, suet, and other supplies are provided for them. The food may be placed in troughs on window sills, the suet may be suspended by string from the branch of a tree or clothesline, it has been suggested.

New Policeman Named—
Merchant Police Officer Ray Wilson was today promoted to the regular force, filling the vacancy caused by the death of the late Patrolman Harry C. Jones. Commissioner Cal G. Tyler announced the appointment of Jack Van Meter, who has served for several months as a special police officer, as merchant police, to take over his new duties Wednesday night. He has had several years experience as special officer and has been in the military organizations in Dixon since 1931, serving at present as first sergeant in Co. A of the Illinois Reserve Militia.

Two Fires Simultaneously—
Two fire alarms were received this afternoon about 1:30 o'clock within a few minutes, requiring the services of two trucks and both platoons of city firemen. The first call was an alarm summoning the department to the Harold Bradford residence at 316 East Fellows street. Shortly after the department left, another alarm

Widening Split Is Reported Between Hitler, Generals

London, Jan. 5.—(AP)—A reliable foreign source tonight reported a widening split between Adolf Hitler and his generals over the backfiring offensive against Russia.

This source said that Field Marshal Gen. Walther von Brauchitsch was the third high Nazi army leader to either resign or be fired by Hitler.

The others were Field Marshal Gen. Fedor von Bock, commander of the central front in Russia, and Col. Gen. Johannes Blaskowitz, who asked for his discharge even before the campaign began.

General Blaskowitz was said to be living in Paris as a private citizen. One of the main leaders in the Polish campaign, he arranged the capitulation terms for Warsaw. When Hitler decided to invade Russia, the general said he "wanted no part of it," this informant said.

"Irrefutable" Information
Information from an "irrefutable agent abroad," also said that Gen. Oscar von Niedermayer, chief of the eastern department under von Brauchitsch and a staunch admirer of his superior, also had been dismissed.

There also were unconfirmed reports that Field Marshal Wilhelm Ritter von Leeb, commander of the Leningrad front, Field Marshal Gen. Karl Rudolf von Rundstedt, commander of the southern front, and Gen. Heinz Guderian, commander of the panzer divisions on the central front, had asked to be relieved of because of disagreements with Hitler and his military "yes men," Field Marshal Gen. Walter von Reichenau and Gen. Alfred Jodl.

The dispute between von Brauchitsch and Hitler is very old, they said. Hitler was reported to have insisted on a continuing assault on Moscow when the field marshal recommended a Nazi withdrawal to a winter line running from Narva on the Estonian-Russian border to Smolensk, Bryansk and Kharkov.

The bride-to-be was graduated from Dixon high school and is employed by the Dixon Home Telephone company. Her fiancé, a graduate of Sterling Township high school and the Scovill schools, is now employed in the office of the Rock Island arsenal.

No Big Ten Quint Will Find It Easy During This Season

Schedule Calls for Each Team to Play All Other Crews in Conference

Chicago, Jan. 5—(AP)—In this bigger and better Big Ten basketball race that's currently being unfurled, no one team has an easy schedule because each club must play each other at least once. And Minnesota and Northwestern are among the first to find out just how true this is.

Victors in their opening clashes Saturday night, the Gophers and Wildcats will tangle tonight in finish, the number of unbeaten teams in the league will be reduced to four at most, barring mishaps to Iowa (against Chicago) and Purdue (against Michigan).

Illinois, which also was successful in its inaugural test Saturday against Wisconsin, is idle tonight.

The Badgers, 1941 Western Conference and National Collegiate champions, will seek the victory path at Bloomington, Ind., against Branch McCracken's Hoosiers, also disappointed in their first start.

Here's What Happened
At a glance, here's what happened Saturday night:

Illinois, showing speed and no trace of the jittery among its sophomore aggregation, raced over Wisconsin, 55-40, after leading, 38-21, at the half.

Purdue, getting up a powerful head of steam against an inadequate Chicago quintet, scalded the Maroons with a 64 point offensive, against which the Midway five could counter with only 19 points. The halftime score was 30-5.

Minnesota, unbeaten in five pre-conference games in which it scored better than 50 points a tilt sprinted to an early 21-5 lead over Ohio State and breezed on to a 56-42 victory.

Iowa, capable of staying even with Michigan's Wolverines for one half, found reserve power and moved away to the intermission for a 40-34 triumph.

Northwestern, finding sophomore Otto Graham as much of a sensation on the basketball floor as he was on the gridiron last fall, were held to a 36-35 edge by Indiana until late in the game and then broke away to win, 50-40.

Standings and schedule:

	W	L	Pct	pts	O.P.
Purdue	1	0	1.000	64	19
Minnesota	1	0	1.000	56	42
Illinois	1	0	1.000	55	40

West Ties East in All-Star Game

Bill Sewell, Washington State, half-back on West team being thrown for a 3-yard loss in second quarter by Bernie Crimmins, Notre Dame guard on the East team, as the two college all-star teams played a 6-6 tie in their annual charity game at New Orleans, La.

Bears Prove They Are Real Champs of Pro Football

New York, Jan. 5—(AP)—In the name of sweet charity—and by way of proving that his Chicago Bears are just about the greatest gridiron collection ever turned loose to prowl—jumping George Halas' bankroll showed a \$6,000 hoist today for two All-Star games.

George, mind you, had a lot of satisfaction from the way those apples of his eye knocked over the National Pro-Football League All-Stars two years in a row, turning in a 35-24 decision yesterday in the Polo Grounds for the second one. But the red ink is getting to be quite an item.

A year ago, Halas took his Bears out to sunny California and blew \$3,800 of his own while turning in a 28-14 win over the All-Stars. Yesterday George brought the thundering herd into the local National League ballyard because of the war, and in the process of becoming a set of mud-covered snowmen the pro league champs rolled up the biggest score ever marked up in this four-year series.

The choice of freezing a few ties apiece or staying home by the fireside resulted in a cozy gathering of only 17,725 fans. This produced a net gate of \$51,059.67, of which the navy relief fund got \$25,529.84.

Out of the balance came some \$3,800 rental for the park and \$8,200 for the 28 all-stars—each of whom collected \$150 and expenses. What was left, after George paid his men and a few incidentals represented an estimated loss of a couple of thousand iron men. So, George won the ball game and proved his point about his Goliaths, but he paid for it.

For that matter, so did the All Stars. Don Hutson, Green Bay's pass-catching end, wound up with a broken rib; Frank Filchock, Washington ball-catcher, had two of the same; and Slingin' Sammy Baugh had to have four stitches taken in his jaw.

Surprises Are Dime a Dozen in Hockey Loop

(By The Associated Press)
Surprises were a dime a dozen in the National Hockey League over the week end with the Detroit Red Wings scoring 10 times while white-washing the Montreal Canadiens and the Brooklyn Americans turning in their first triumph, 3 to 2, over the Boston Bruins since March 9, 1940.

The Red Wings beat Paul Bibeault, rookie goal tender for Montreal, four times in the first period and then added three in each of the remaining cantos to come within one tally of the league mark established by Montreal in 1938.

Boston's surprise setback cost the Bruins a change to break a first place tie with Toronto. The Leafs climbed into the deadlock Saturday night by defeating Brooklyn, 4 to 2.

Sports Roundup

BY HUGH FULLERTON, JR.
(Wide World Sports Columnist)

New York, Jan. 5—(Wide World)—Wonder if anyone has thought of the possibility that war conditions will help baseball and some other spectator sports instead of wrecking them? ... With no new cars and no tires to take folks out of town, they're likely to turn for amusement to the places they can reach easily—the ball parks. ... Certainly they won't be leaving minor league towns and driving 100 miles or so to see big league games.

Brass Ring Dept.
In a private bowl-picking contest in the family of Jack Meagher, Auburn grid coach, six-year-old Pat won out over Mrs. Meagher and five other kids. He picked them all right. ... Hank Wolfe of the Richmond News-Leader apparently grabbed the brass ring among the southern scribes. He was the only one in Virginia to pick Oregon State over Duke. Other states haven't reported yet.

Monday Matinee
Hold your hats, boys, here comes Lou Nova with another new punch. He calls it the "Spit-fire Punch"—it's a short, fast right that starts high and comes down. ... Should do all right if it's equipped with a cannon and a brace of machine guns. ... Frank Brimeck, the Bruins' goalie, has joined the Brookline (Mass.) aircraft warning service and puts in three hours a day on duty. ... Private Charles White of Lowell, Mass., got a three-day furlough when he was transferred to the army ski troops. He put in his time skiing in New Hampshire. ... Pat Comiskey, who was busted out of an automobile crash last fall, is back home in Paterson, N. J., but he still has a cast clear up to his hips.

Today's Guest Star

First roundup of the "Bow and Buy Bonds" program by the A. B. C. shows total sales of \$145,000 in Milwaukee, Detroit, Chicago, Cudahy, Wis., Houston, Columbus, O., Fort Dodge, Ia., Louisville, and Roseville, Mich. ... In Hollywood, Calif., Sam Sievert told the boys who bowl at his place that he would match them dollar for dollar on their bond purchases. Every league in the place took him up. ... Bowling teams with reservations for the A. B. C. tournament have until tomorrow to get in their entries. Dates have been assigned to 4,733 teams.

Last Laugh

Out at the Oklahoma City basketball tourney they were telling this on Ernie Kueley, who is as good a court referee as baseball umpire. ... During a tourney at Kansas City, Ernie became annoyed at a fan who was riding him, so he stopped the game and announced: "There is entirely too much officiating from the gallery. ... The heckler didn't miss on that one. ... "Yes," he shouted, "and entirely too little of it on the floor."

Cigaretts valued at \$1,037 million were manufactured in 1939 in 35 factories which gave employment to 27,426 persons.

Louis Risks Title Friday Evening in Navy Soc. Benefit

New York, Jan. 5—(AP)—Joe Louis, who wound up with a knot on his head, an argument on his hands and \$40,000 in his pocket the last time he tied into Buddy Baer, risks his heavyweight title against the Californian again Friday night with nothing but thanks as his reward.

The champion expects to earn twice as much as he did before, in about half the time, but he's giving it all away. Win, lose or draw, Louis will donate his end of the purse to the Navy Relief Society, which takes care of the families of navy men felled in action.

If the gate reaches \$225,000, the goal set by Promoter Mike Jacobs, the bomber's share will be around \$80,000.

Baer is turning part of his purse back to the naval fund and Jacobs is working for nothing. **Champ's 20th Defense**
It took Louis six rounds to finish the job in Washington, D. C. last May, after Baer had bounced the champion on his head in the opening frame. Baer was disqualified by Referee Arthur Donovan when Buddy's manager, Ancil Hoffman, remained in the ring to claim a foul after the seventh round was scheduled to start. The argument that followed lasted for days, but Capital boxing officials sided with Donovan.

This time, Louis says, there'll be no room for argument. He had been powdering his sparring mates with terrific blows at his Greenwood Lake Training camp, and his handlers say he will be the Louis of old when he crawls through the ropes at Madison Square Garden for the 15-round tussle at 10 p. m. (EST).

At Lake Wood, N. J., Baer has other licks. He even talks of putting Louis down to stay this time. The battle, expected to attract close to 20,000 customers, will be the 20th title defense for Louis since he lifted the crown from Jimmy Braddock four and a half years ago.

Nervousness, Cold Sent Babe Ruth to New York Hospital

New York, Jan. 5—(AP)—Babe Ruth, who batted his way to a salary greater than that paid the president of the United States, was resting comfortably today and recovering rapidly from the extreme nervousness that necessitated his removal to a hospital early Saturday.

Mrs. Ruth, wife of the man who once was paid \$80,000 a year for playing baseball, said "he was getting along fine" and that she expected him to be released late this week.

A narrow escape in a car accident during the holidays, when his car was wrecked, and a heavy dieting program during which he lost 37 pounds in a few weeks brought about the nervousness, a physician said. Ruth also is suffering from a heavy cold.

HOW IT IS MADE

After being boiled in water for a long time, meat falls to pieces and the substance which held the meat fibers together is dissolved in the water. This solution, when cooled, turns to jelly and it, in turn, is ordinary furniture glue when dried.

Amunition was produced in 13 plants in the U. S. in 1939. They employed 4,234 persons to make goods valued at \$29 million.

Illinois Colleges' Basketball Teams Take Up Schedules

Over Score of Contests on Cards During the Current Week

(By The Associated Press)
Students of Illinois colleges went back to classes today after the holiday vacation, and for the most part their basketball teams returned to work. More than 20 games are scheduled for schools throughout the state this week.

Most of the contests, however, are non-conference affairs, with only six league games billed. Four of these were in the Illinois College Conference and two in the Illinois Intercollegiate Conference.

In I. C. C. play Augustana will oppose Monmouth's quintet, beaten only once in five games, tomorrow; Illinois College will play at Illinois Wesleyan Wednesday; Millikin will perform at Augustana Friday and Illinois College will go to Lake Forest Saturday.

Two league tilts were played before the holidays, Lake Forest being the loser in both, once to Millikin and once to Illinois College.

First I. C. C. Games

The first games of the Intercollegiate circuit will be played Thursday and Friday, Eastern Teachers facing Western Teachers at Macomb the first night and Northern Teachers at DeKalb the second evening.

The University of Illinois, winner of its first Big Ten game Saturday night, is scheduled next at Ann Arbor Saturday against Michigan. Bradley Tech, participating in only three I. C. C. games, will continue its intercollegiate activity against West Texas Teachers tomorrow at Peoria and Duquesne Saturday in the Chicago Stadium.

Also taking part in the week-end double header in the Stadium will be De Paul of Chicago, host to the touring Texans.

Tonight: Ball State at Illinois Normal, Minnesota at Northwestern, Iowa at Chicago.

Tuesday: Northern Teachers at Joliet; Lake Forest at Illinois Tech; Augustana at Monmouth; West Texas State at Bradley; De Paul at Toledo.

Wednesday: Southern Teachers at Cape Girardeau; Illinois College at Wesleyan.

Thursday: Eastern Teachers at Western Teachers; Chautau Field at Normal.

Friday: Eastern Teachers at Northern Teachers; Eureka at Chicago Teachers; Scott Field at Southern Teachers; Illinois College at Carthage; Coe at Monmouth; Millikin at Augustana.

Saturday: Illinois College at Lake Forest; Coe at Knox; Bradley vs Duquesne and De Paul vs West Texas State in Chicago Stadium; Wesleyan at North Central; Illinois at Michigan; Northwestern at Chicago.

College Football Ready to Fill All of Uncle's Orders

Phoenix, Ariz., Jan. 5—(AP)—College football will be ready to fill any order by Uncle Sam in 1942.

If Uncle Sam wants fine, well conditioned athletes, he'll get them. If he wants football to develop more athletes, he'll get that, too.

It doesn't take long to discover this sentiment among recognized leaders of the gridiron sport who are gathered at Camelback Inn here today.

The occasion is the annual meeting of the National Collegiate football rules committee, composed of the men who lay down the laws for your football heroes to follow.

Sitting with the group, some of them members of the official family, are ranking coaches of the nation, men whose names are familiar to all followers of the game. Dana X. Bible, Alonzo Stagg, Lou Little, Matty Bell, Dick Harlow, Bill Alexander and others.

"Sure, we'll have football next fall, and good football," said Matty Bell, the one time Paylin Colonel from Centre College, now coach of Southern Methodist University at Dallas.

"But," he added, seriously, "you can bet that the boys that go into service will go gladly and they will be mentally and physically fit, just as they were in the last war."

BLOOD-GROUP IS RECORDED

County-Wide Red Cross Campaigns Start on Thursday

Lee County's Quota in Emergency Fund Put at \$7,100.00

"Remember Pearl Harbor and the Philippines."

Lee county's quota in the emergency Red Cross fund of fifty million dollars is but \$7,100 and no time is to be lost in meeting this obligation. This was the announcement of Frank J. Robinson, chairman of the special drive today, in announcing that the campaign to secure the sum would be started Thursday morning. He also disclosed the fact that many patriotic citizens have not waited for the drive to get officially underway, but have left their subscriptions with officers of the county organization.

Robert Sterling, Lee county Red Cross chairman, today called a meeting of the finance committee to be held this evening at 7:30 o'clock at the Chamber of Commerce offices for the purpose of outlining plans for the campaign. This committee is composed of Frank J. Robinson, chairman, Morey Pires, William V. Slothower, John L. Davies, the Rev. Herbert J. Doran and Robert L. Warner.

Roster of Officers

Officers of the county organization are Robert Sterling, president; John L. Davies, treasurer; Frances Patrick, secretary; D. H. Spencer, George B. Shaw, Albert Ruggles and James Palmer. The county unit today announced that the annual Red Cross roll call is closed and all efforts will now be devoted to the subscribing of the emergency quota. The campaign will officially open Thursday morning but in the meantime voluntary subscriptions may be left with John Davies at the City National bank; J. B. Lennon at the Dixon National bank or with Miss Patrick at the Chamber of Commerce offices.

Every section of the city is to be included in the drive to be started Thursday, with a special group of women workers assisting in contacting the citizens. Every subscriber will receive an official Red Cross button bearing the world famous sign of the organization and the two words, "I gave." It is hoped that every citizen will be wearing one of these pins and that the Lee county quota will be fully subscribed within a few days after the launching of the campaign.

Outside of Dixon and throughout the county, in communities where a Red Cross chapter exists, these units will conduct the drives and in localities without an organization, the supervisor will select workers to assist in the campaign.

Proclamation

WHEREAS the people of the United States and their armed forces, following a direct and unprovoked attack by an alien power, have entered with determination upon a state of war; and

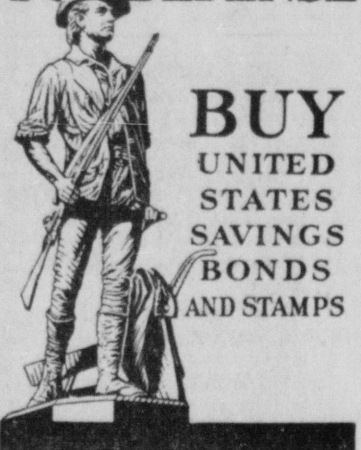

WHEREAS expansion of our Army, Navy, Marine Corps and Coast Guard, and of our war industries will proceed upon a scale unprecedented in our history; and

WHEREAS American citizens are suffering great injury and property loss from air attack and are in need of direct and immediate help; and

WHEREAS further preparations must be made to protect American cities and American populations from unnecessary suffering during air attack or disaster caused by sabotage; and

WHEREAS the American Red

FOR DEFENSE

Cross is the only organization in our land equipped and ready; first, to provide welfare assistance to the men who are defending our country at home and overseas, through the services of Red Cross Field Directors, volunteers, and blood donors; second, to assist American evacuees from danger zones; third, to further equip our communities with trained Red Cross Motor Corps, Canteen Corps, Nurses Aide Corps, First Aid units, and other vital rescue corps instrumental in saving human life; fourth, to bolster the strength of the nation and the nation's war effort by such services as accident prevention, Disaster Relief, Home Nursing and Public Health Nursing; fifth, to train our young people in the paths of service and good citizenship through the medium of the Junior Red Cross; and

WHEREAS such a program as outlined above will necessitate the expenditure of large sums of money;

THEREFORE, I William V. Slothower, Mayor of Dixon call upon the members of my community to give through our local Red Cross Chapter their generous and unstinted support to the American Red Cross emergency war fund of \$50,000,000 as outlined in President Roosevelt's recent proclamation. This fund not only will aid the national Red Cross to expand its services, place them upon a war basis, and permit this great organization to play its traditional role in saving life, and in helping our country achieve its final victory, but also will aid our local chapter in meeting its war-time public service obligations; and I further proclaim that your contributions to this fund will represent your tangible share in our mighty battle for freedom, for justice, and for the very survival of our nation.

Sublette

Funds received from a benefit patriotic card party and dance, sponsored by the SOS Mothers' club of Sublette on Wednesday evening, January 7 at the Sublette Community hall, will be sent to the Sublette boys who are in the nation's armed forces. The card party will start promptly at 7:30 o'clock. "Five hundred", euchre, bridge and pinocle will be played. Dancing will follow with music by the Merry Makers. Lunch extra. The public is cordially invited.

"Smoker"

The annual "smoker" sponsored by the Holy Name society will be held in St. Mary's school Wednesday evening, January 21. Plan to attend.

Firemen's Dance

Members of the Sublette fire department will sponsor a dance in the Community building, Wednesday evening, January 28. Music will be furnished by Frankie Pzyner and his orchestra.

CANADIAN WHALING PLANTS

Canada has only two whaling plants, both in the province of British Columbia. They took 219 whales in the four-month season of 1940, compared to 310 in 1938.

It is estimated that every meadowlark is worth \$1 a year as a destroyer of grasshoppers alone.

They'll Do It Every Time

Continuous Work Week at Hand in Most Arms Plants

New York — (Wide World) — Round-the-clock production of armaments is at hand.

One of the first marching orders of President Roosevelt when war was declared early last month was for quick establishment of continuous output in leading war goods lines.

American industry has responded with characteristic speed. Executives say very shortly almost every aircraft, tank, ship, gun and ammunition unit of any size will be operating on a twenty-four hour basis.

Even before the executive order, many key concerns, including airplane engine factories were producing on the continuous basis.

Wright Aeronautical Corp. has announced that its airplane engine builders had foregone the New Year's holiday, and were busy throughout January 1, from midnight to midnight, at their machines and benches turning out the regular grist of plane motors. Many other arms supply units, too, worked as usual on New Year's Day.

How one large industrial concern effected a 168-hour-a-week operations was recalled by Standard & Poor's, a statistical agency.

"The 168-hour week is an old story to the Timken Roller Bearing Company," the agency said. "It tackled this problem some time ago and came through with a plan for operating three 8-hour shifts per day, but with four crews to handle the three shifts."

"Through an intricate scheduling of shifts and crews, each crew works five extra shifts over each period of 20 weeks. Overtime is paid for the extra shift work. These five extra shifts each 20 weeks bring up the work-week for the plant to 168 hours."

"Every man works five days in a row and then is off at least 48 hours, after which he changes shift," the agency adds. "Over each period of 20 weeks, every man has five Sundays off. The same crews are always working together, and no relief men are required."

Steward

Mr. and Mrs. Floyd Stein spent New Year's Eve in Rockford with friends.

Mr. and Mrs. Harry Andrus entertained at their home New Year's evening with a 6 o'clock buffet supper. Mr. and Mrs. Charles Hanson and Roberta of Rochelle.

Mr. and Mrs. Andrew Larson entertained at their home New Year's day. Mr. and Mrs. Harold Larson and children of near Davis Junction and Mr. and Mrs. Olaf Kaalas and children of near Kirkland, and Mr. and Mrs. Oscar Larson and daughter of Rochelle and Dr. and Mrs. Axel and children of Lee and Miss Ruth Larson of Lombard.

Miss Allie Durin of Chicago and Lieut. Robert Durin of Fort Sheridan spent a couple of days here last week at the home of their mother, Mrs. Margaret Durin.

Miss Jeanne Beitel entertained some of the 1940 high school class at her home Friday evening. On account of bad weather all of the class were not able to be present. Bunco and other games were played and at the close of the evening a lovely lunch was served.

Consider Places From Which Japan Could Be Bombed

Plans for Campaign in Air Against Nippon Have Been Made

New York—(Wide World)—When the time comes, American bombing attacks will be launched against Japan and Japanese-held areas in the Far East in accordance with carefully drawn plans.

These plans are, of course, secret. Every contingency is being counted on—even if the Japanese win Singapore, Britain's Far Eastern naval bastion, and the islands of the Dutch East Indies.

Despite the necessary secrecy of this strategy, it is possible to draw some conclusions about points from which Japan and its possessions may be bombed, and see why there may be some delay before the United States launches big-scale air attacks.

Since the crux of the problem of carrying on a successful air war against Japan is bridging the tremendous distances separating continental America from the Far East, it is going to take time to get the American offensive organized.

From what points will the United States strike?

The most logical base is Vladivostok, at the tip of a narrow strip of land abutting Japanese-dominated Manchoukoo, the former Chinese province of Manchuria.

But Vladivostok is in soviet Russia, not at war with Japan. Only 660 air miles from Tokyo's vital war industries it will remain closed to American planes bound for assaults on Japan unless Russia elects to open a second front, or the Japanese themselves open the attack.

Others of Importance

Batavia, Java, the seat of resistance in the Dutch East Indies to Japanese aggression, is only

township fire trucks answered the call and kept four streams of water on it for about three hours. The house is owned by Irvin Paul and was covered by insurance.

830 air miles from the front where the British are fighting to oust the enemy from the Malayan peninsula.

And still another are the interior China airfields. These constitute a threat to every point where the Japanese obtain a foothold.

Singapore is not to be overlooked. Singapore-based bomber can strike at Japanese lines of communication to French Indo-China.

Australia can become the supply depot and departure point for vast air operations against Japanese expeditionary forces. It would be no trick to fly bombers the 1,950 miles from Port Darwin or 1,650 miles to Batavia.

AUTOMOTIVE HINT

If you are in a hurry and haven't time to clean off road film that dries on your automobile windshield after a shower, just take it off with an ordinary whiskbroom, rubbing horizontally and vertically to remove streaks. It will not scratch the glass, and the polish may be put on at your leisure.

LOTS OF PAPER

In the course of a year, each person in the United States uses an average of 50 pounds of newspapers, 22 pounds of wrapping paper, eight pounds of fine papers, 88 pounds of paper boards, 21 pounds of magazines and books, and 120 postage stamps.

SUN'S EFFECTS

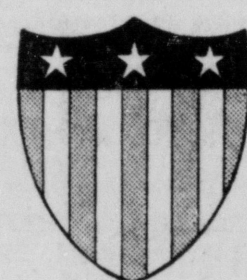

The sun's energy output varies, but when the sun gets hotter, the earth gets cooler, since the increased solar temperature stimulates evaporation and winds here on earth.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

DECLARATION OF WAR POLICY

THREE YEARS AGO, when the world was substantially at peace, this writer issued a declaration of business policy to mark the occasion of his taking office as president of the Illinois Central System.

But veritably a lifetime has been lived in those three short years. Today we are engaged in a world war, a war that endangers the continuation of our nation's freedom and our American way of life. That war now takes precedence over everything else.

So now I restate our policy in terms of the war. To suffer hardships, if those hardships are necessary, will be not a sacrifice but a privilege, as has been so ably revealed. If the army or the navy or the marine corps or military production needs something the Illinois Central has to offer, that service will be provided in the certain knowledge that our regular customers will understand and gladly yield if temporarily inconvenienced or discommoded.

We must win the war. Yet, to the extent that may be permitted, we hope to provide:

For business and individuals, adequate and dependable transportation, pleasant service, continued improvements, fair and reasonable rates that will stimulate commerce and yet cover our costs.

For our workers, reasonable wages, fair treatment, good working conditions, modern tools.

For our investors, a return that will maintain credit and attract needed new capital.

For our friends and neighbors, performance that will command—and deserve—their continued confidence and good will.

But all these are as nothing if we lose the war. We must WIN the war. To that end we of the Illinois Central pledge our hearts, our hands, our every effort.
